### FOALING SERVICES

The staff of equine professionals at Equine Reproduction Centers will assist in the foaling of your pregnant mare and provide care for the newborn foal. Our foaling fee is \$500.00 plus the daily boarding rate. A limited number of mares will be accepted into our foaling program each year and early reservations are advised. A \$150.00 non-refundable reservation fee is required at time of booking.

*(Note: All foals born at our facility will receive a vet check from a licensed California Veterinarian\*.)*

#### **Services Included: (As needed)**

- 24-hour monitoring
- Large (24 ft x 12 ft) in and out foaling stall
- Video surveillance in each stall
- Milk calcium screening to predict impending foaling
- Foal Alert® monitoring alarm to detect onset of foaling
- Veterinarian on call when needed for foaling
- Umbilical cord care (navel dipped with Nolvasan® solution 2-4 times per day)
- Enema administered to newborn foal to decrease risk of meconium impaction
- Mare dewormed after foaling to limit parasite infestation of foal

#### **\*Vet Check (additional fee)**

- Newborn foal and postpartum mare examinations, measurement of the antibody level in foal's blood at 12 and/or 24 hours of age to detect failure of passive transfer at the time of the post foaling exam.

**Additional Services Available (*at an additional cost*):**

- Supplemental colostrum, colostrum substitute (i.e. Seramune®), or plasma therapy if needed
- Veterinary services for non-routine events (i.e. dystocia, retained placenta, etc.)
- Foal heat breeding services for mare
- San Luis Rey Equine Hospital used in the event of an emergency
